

NEW!

ATS-2 Tempo™

As technology and architectural trends evolve, so do our openers. Designed with you in mind, Tempo™ is **FASTER, BRIGHTER, AND MORE POWERFUL THAN EVER BEFORE.** At its core, Tempo™ features a new, easy to program electronic platform, a supercharged motor, and design updates that will simplify installation.

KEY FEATURES

Tempo™ exceeds Dynamo® GDO-9v3 capabilities

The best in Automatic Technology development history

Superior lifting power, our fastest opening speed ever, and brighter 60W equivalent light

Design updates simplify installation

Hinged cover, clip-on accessory module, pre-wired harness, and quick fit battery compartment

New innovative NextGen platform

3 variable opening speeds (115-150-180mm/sec), supports easy install of transceivers with serial BUS protocol, and PE beam Align Assist function.

INSTALLATION

We recommend Tempo™ be installed with a Steel/Belt or Aluminium/Belt rail for quiet operation

APPLICATION

Residential sectional doors up to 200kg

TECH SPECIFICATIONS

Short term peak force	1100N belt/chain. 1200N tilt
Coding system	TrioCode™128, code hopping
Transmitter capacity	64
Safety beams compatibility	2 x wireless or 2-wire
